Mr. Ellis-

I wanted to check with you and see if it would be possible for us to sample at your tank battery near the Birdcreek spill tomorrow around 10:30. We will be in the area for a while so any time around then will work. Please contact me at the number below or Kent Sanborn if you have any questions.

Thanks,

Jessica Moore

Here are the two wells Kent inspected last week. I can pull the data for any other wells you identify that might be helpful. Also, (as long as we have the data) I can add any columns that you may find helpful, I just pulled what I thought you might need.

Thanks,
Jessica

I have a call in to Mr. Farr to clarify the geographic limits and time limits of his request. I will let you know as soon as I hear back from him. As I reviewed the form I also noticed that his maximum cost was \$25. We will need to do a cost evaluation using the worksheets attached to the request. Lets plan to get together in the morning to review the process and get our plan in place.

To: Moore, Jessica <Moore.Jessica@epa.gov>
Subject: RE: FW: FOIA request for Bird Creek Area #10280

I think it needs to be in writing. We should ask for all documents in the discovery and ultimate repair of [REDACTED]. That would include written proposals by consultants/engineers, daily pressure readings by the pumper of injection for several months leading up to the hole discovery, September oil production numbers, etc.

Subject: RE: FW: FOIA request for Bird Creek Area #10280

Are you going to request those logs? Do we need to do some sort of formal request?

From: Sanborn, Kent
Sent: Tuesday, October 25, 2016 12:38 PM
To: Moore, Jessica <Moore.Jessica@epa.gov>
Subject: RE: FW: FOIA request for Bird Creek Area #10280

A source informed me that [REDACTED] hired an engineer to design and oversee the well repair. We should see his notes and plan and any daily logs while the workover proceeded. Not sure this source wants to be ID'd but I trust the statements he made. The leak was reported to be at [REDACTED].

Jessica I see no reason why you couldn't run what tests you need to run at our Osage B lease. You really should call our Superintendent, Ted Pope, at 918-625-2070.
